Session 5: Mr Suleman Khoja (Sr Executive, QA, USV Pvt Ltd, Daman)

Mr Suleman Khoja delivered a training session on importance of quality management system in industry. During his session Mr Suleman explained Products are consistently of a high quality thanks to quality control procedures, lowering the possibility of product recalls and bad press. In turn, this promotes the development and maintenance of client loyalty and trust. Mr Suleman explained A comprehensive set of guidelines, procedures, and policies known as a pharmaceutical quality management system (QMS) is created to guarantee and maintain consistent, high quality when creating pharmaceutical products. The applicable regulatory standards and the specific demands of the pharmaceutical industry must be reflected in the QMS. Pharmaceutical businesses can reduce risks, boost customer satisfaction, and streamline quality procedures with the use of an effective Pharmaceutical Quality System (PQS) that represents the relevant criteria.
