GUEST LECTURE

Dr. Shivani Desai shared vital information on Vaccine safety surveillance- a key aspect in current pandemic. Dr. Desai explained that successful immunisation programmes require high-quality vaccines and safe immunisation techniques. During the pre-licensure stage, all vaccines are subjected to extensive safety testing. In India, the Adverse Events Following Immunization (AEFI) Surveillance programme is an important aspect of the routine immunisation programme for evaluating vaccine safety following licensure phase. Dr Desai also shared information regarding the national vaccination programme unveils newly developed vaccines for various age groups and coverage improves, concerns regarding vaccine hesitancy and confidence are likely to arise more frequently, and the AEFI surveillance programme will be tasked with responding to community concerns and maintaining public confidence in vaccines. Dr. Desai also explained role of Active and Passive surveillance in Vaccine safety evaluation. Along with ensuring equitable access to vaccines for all people around the world, countries must make immediate preparations for COVID-19 vaccine safety surveillance.

GUEST LECTURE

Dr. Manoj Swaminathan is a freelancer and that in Pharmacovigilance with more than 15 years of industrial experience. Dr. Manoj explained eco pharmacovigilance (EPV) is a developing science and it is currently very unclear what it might mean in practice in India. Dr. Manoj highlighted that the biggest challenge concerns signal detection in the environment and the difficulty of identifying cause and effect. Dr Manoj highlighted future scope for formal framework or mechanism to review the ERA, or to monitor for potential adverse effects in the environment, once a product has been launched. Dr Manoj also explained comparative aspects of PV with EPV.

MOCK INTERVIEW-2022

ROFEL, Placement Cell, Organized Mock Interview Round on 31-03-2022. The objective for conducting such Mock interview was to facilitate interview preparation and enhancing the employment prospect for our students. Students were evaluated in terms of technical knowledge, etiquettes, and communication skills. Apart from these, the students were given better exposure by asking questions associated with their resume content and industrial visits. Students body language, coming to the personality or behavioral aspects was also evaluated. At Last individual students were addressed by expert panel giving recommendations and individual basis feedback depicting what is required for the students to improve their employability ratio. Moreover, in mock interview a major part was to make understand their mistakes and inculcate the confidence in them by discussing weak points after facing the interview.

Panel Members of Mock Interview was as follows:

- 1) Dr. Kedar Shukla, Professor & Director of GIDC Rajju Shroff Institute of management studies (GRIMS).
- 2) Dr. Arindam Paul, Principal, ROFEL Shri. G. M. Bilakhia College of Pharmacy, Vapi.
- 3) Dr. Chirag Desai, Associate Professor, ROFEL Shri. G. M. Bilakhia College of Pharmacy, Vapi.
